Forecast For Northwest England
Issued by Met Office Exeter
at 1600 on Tuesday 08 Jun 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Becoming cloudier, with light rain at times.

This Evening and Tonight:
Staying dry through the night with patchy cloud. There may be the occasional periods where the cloud breaks to give clear spells. Some cloud and light rain then begin to approach the west coast towards the morning. Minimum temperature 10 deg C (50 deg F).

Wednesday:
Turning increasingly cloudy into the day, and with patchy light rain continuing to fall at times. A light breeze picks up through the day. Maximum temperature 25 deg C (77 deg F).

Outlook for Thursday to Saturday:
Sunny spells and the occasional outbreaks of rain Thursday and Friday, though drier in southern areas. More settled on Saturday, but feeling cooler than recently. Some coastal fog possible.
